## **Detailed Action**

### **Response to Arguments**

Applicant's arguments filed 1/19/2010 with respect to Claim 16 have been fully considered and are persuasive. The 103 rejection of Claim 16 has been withdrawn.

### **Examiner's Amendment**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter DeVore on January 28<sup>th</sup>, 2010.

The application has been amended as follows:

Claim 27 has been amended to read --27. A photoacoustic detector as set forth in Claim 16, wherein the aperture is formed in a panel-like skirt element serving as a door frame, the door being on only one side mounted on structure of the door frame encircling side faces of the door. --

Claim 28 has been cancelled.

### **Reasons for Allowance**

Claims 16, 17, & 19-27 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claim 16, the prior art of record, taken alone or in combination, fails to disclose or render obvious a door that is movable in response to the movement of a gas, the door being positioned in the aperture and at least on one side mounted so that an inner periphery of the aperture surrounds the door and a slit exists between the door and the inner periphery of the aperture, in combination with the rest of the limitations of the claim.

In the previously cited art of Lee the applicant argues that this door is used in conjunction with a piezoelectric transducer to monitor movement and thus is not analogous art and should not be combined with De Paula which uses a pellicle to sense the vibrations of the air by optically measuring the movement of the pellicle. The examiner agrees with this argument and has thus withdrawn the art. Further, the examiner has been unable to find a door matching the description as laid out in the claim that is used in an optical measurement. Thus the examiner has found the claim to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**
